

SWIPPA Conference 2022

## **Positive Environment in the Personal, Social, and Environmental Sphere**

We are pleased to draw your attention to this year's SWIPPA conference, which will be held virtually on November 25, 2022.

The theme of this year's conference is "Positive Environment in the Personal, Social, and Environmental Sphere". In this context, we understand positive environment in a broad sense, i.e., positive environment in school, clinical context, personal sphere, workplace, and nature. The lectures and workshops by renowned personalities from Positive Psychology (Prof. Dr. Charles Martin-Krumm, Prof. Dr. Marcel Hunecke, Prof. Dr. Anton-Rupert Laireiter, Prof. Dr. Rebecca Shankland, Renate Hasler, M.Sc. and Jenny Marcionetti, PhD) are varied and, together with parallel sessions, offer many opportunities for exchange between participants and speakers. This year, workshops are newly offered in English, German, French and Italian.

Registration for the conference is now open. For further details and registration information please visit the website
